Capt. Hayward's Letter Of His Trip To India

(Copy of letter from Capt. Henry Hayward received on February 15, 1943, one month from the date of his death.)

British General Hospital,
Poona, India.
21th November, 1942.

Dear Miss Estlin:

I'm afraid it's a long time since last I wrote you, but I think mother has given you word of my doings.

My unit left England in the spring, after a winter in the west of England, in what in peace time is one of the great tourist districts, specially for Canadians and Americans, and quite near the Shetland sea country. Very lovely country was staying with relatives only a few miles away so I saw quite a lot of her right up to the time of leaving. We finally left after being inspected by various Distinguished Personages.

The voyage out was fascinating and I wish I could give you details. We stopped off for four days at one place in South Africa where the local inhabitants showed us a wonderful time. The place itself and the country around were very beautiful and local hospitality as warm as any I have ever known. It was a kind of a free and easy atmosphere about the people and their way of living which reminded me very much of B. C., and was very different from England.

We arrived in India at just about the worst possible moment, at the height of the hot weather. Fortunately we entrained almost at once and moved up to a semi-till station inland; although pretty hot, one didn't have the frightful humidity of the coastal plain, which made one feel like a wet rag. I made the trip to the coast several times both by road and rail, and either way was very interesting, particularly when one climbed up the side of the plateau.

The rains broke shortly after we arrived and on my second trip the whole mountainside was drenched with waterfalls; and the coastal area an expanse of standing water. The rains made a sudden and very sudden change, for almost overnight, the great expanse of barren, yellowish hills and plains took on a vivid greenness, and grass, trees and shrubs grew up everywhere, only to wither again as soon as the monsoon ended.

We were sent to hold out of some horses and explored quite a bit of the nearby countryside after dusk, passing flocks of banyan trees with groves of eucalyptus and native villages and farms. The standard of living of the great majority of Indians is so low as to approach that of the Chinese, and life for them is a continuous struggle to support life by cultivation. Although reasonably fertile the land offers, of course, from lack of rain, and also from the fact that manure which elsewhere would be used for the fields here to be dried and burned as fuel. In the cities and towns people are, of course, more prosperous, but sanitation, hygiene, etc., falls so far below Western standards as to be a source of health for the white population, well above the natives, which are out of bounds for troops. It is hard to see how the various native quarters, Hindus, Muslims, etc., are ever going to achieve any degree of self-government until they do it is of course, absurd to talk about giving Indians self-rule.

Well, after about two months out here, I went down with acute

polymyositis, or, in other words, Infantile paralysis, the same as Roosevelt. I was whipped down here by ambulance and into an iron lung, as in addition to losing the use of my arms, my chest and diaphragm started to freeze up on me. I have now been in hospital nearly four months and have really made amazingly rapid progress. My breathing is almost back to normal and I only use the lung now for sleeping at nights, and hope to be clear of it altogether quite soon. My arms are also coming, but more gradually, and will take quite a long time yet. I've been "boarded" and recommended to return to England but Heaven knows when I shall get it fixed. Anyway it looks as if I'm out of the war for some time to come, and although it will be most unpleasant to be away from my regiment if and when they go into action, I suppose in a war like this the only way is to take things as they come.

How are you? And I hope that all your family is flourishing. Also all the boys in this shop. Please remember me to B.M. and Dick and Tom. Hadwin and everybody. I expect things are keeping pretty busy around the company with increased calls for power for war industry. (Prior to going overseas, Capt. Hayward was with the B. C. Electric Railway Co.)

I am afraid this will be too late for Christmas but, anyway, all the best for 1943, and may it see us all this way towards finishing off all this nonsense.

Yours ever,
Henry Hayward.

Looking In And Looking Out

By Quercus

SPINACH

I have always had a good deal of sympathy for the kiddies who are importuned against their wishes to eat spinach.

When I walk around White Rock and see gardening operations going on, as one does at this season of the year, I am lead to surmise that the culture of spinach is not being forgotten and that no doubt the time will inevitably come when some little boy or girl will be told to "eat that spinach because it's good for you."

I think of the little girl whose Grandma, as an inducement to eat her spinach, said "Think of the hundreds of little girls who would be glad to eat her spinach, Doris," and of Doris, who in desperation replied "You show me one Grandma, just one."

Perhaps the day will come when little Doris—and all the other little boys and girls who have been persuaded to eat spinach against their wishes—will learn what pains our Great-Grandma's took to save this vegetable for their little ones. This was brought to my attention when skimming through an old recipe book recently lent me by a White Rock friend.

SPINACH TARTS

Here for instance is a recipe, copied word for word, from the cook book in question which is entitled "The London Book of Cookery" and which was published over a hundred years ago. The item is headed "Spinach Tarts" and this is it:

"Steal some spinach in some boiling water, and drain it very

Small Fires Give Firemen Exercise

The fire department has been called out three times during the past five days. The first was on Friday at noon when a trash fire which was supposed to be out, started blazing and caught the fence, and with the wind blowing endangered the house. The Murch's had dumped ashes outside and gone off to Vancouver.

After one o'clock Tuesday a brush fire of unknown origin was ablaze just beyond Semahmoo Highway. Then in the evening at 5:30, the fire engine was called out again to Coldcut's, children playing in the grass, started a blaze in the grass surrounding the tennis court, which was saved by the fire department. The Fire department wished to thank all those who helped in putting out these fires.

Citizens are cautioned in dumping ashes outside to see that they are dumped down so that no danger of fire may be started. Then again on Wednesday 2 o'clock another call came in to so Spangler, 1891 Buena Vista, where a small trash fire was ablaze, one small shed was burned. All else was saved.

DETECTS FLAWS IN RAILS

The Sperry Rail Service Car was round last week, this is the car with the wonderful equipment which detects flaws in the rails and marks the spot as it goes along. These imperfections are then attended to by another gang who come along later.

GOES TO VANCOUVER

Miss Donalene Chambers of Vancouver, was the winner of the desk and stool, with ticket No. 1974. In the draw in aid of the Loyal Protestant Home and V. O.N. This desk and stool which had been made and donated by Mr. and Mrs. D. Campbell, had previously been won by Mr. Guy Graham and redonated by him to the same cause.

Major S. H. O'Keefe, Pacific Command Recruiting Officer and Lt. Col. W. J. Williams, Fraser Valley Recruiting Officer, were in town this week. The great need is for young women for the C.W.A.C. to replace young men of "A" Category, who are needed for reinforcements.

dry. Chop it and stew it in some butter and cream with a very little salt, some sugar, some bits of citron, and a very little onion-flower water. Put it in a very puff paste."

Is that what our grand-mas did to induce their little ones to eat their spinach? If so they evidently did more than merely to tell them that it "was good for them."

Quercus is no cook and by no means recommends the use of this recipe, but there it is and if you happen to possess a copy of The London Book of Cookery you may find the recipe for spinach tarts on page 268.

I understand the famous book has never been reprinted. No doubt there's a tart made of spinach.

With citron and butter, some sugar and cream.

And orange flower water—girls who dread it.

And to add to the taste. Put it in a puff paste. One should get a bit fatish, or else a bit thinnaish.

Congratulations to our Red Cross workers.

Old Time Resident Of White Rock Buried Monday

Mr. Arthur Sharp, more particularly known among his friends as "Art" was buried last Monday in Burray Cemetery.

He leaves to mourn the loss of a loving husband and father his wife, one son and daughter.

The United Church at White Rock where the funeral service was held was filled to the doors by the many friends and neighbors.

There was a large attendance of Orangemen who came from Vancouver, New Westminster, Chilliwack, Milner and Surrey to show the high esteem with which the deceased brother was held.

Mr. Sharpe was for many years an employee of the Hunter Shag Mill and even after this mill had closed down as far as the creation of lumber was concerned he still carried on for some time as watchman.

The funeral service at the church was conducted by Rev. Frank Hardy, pastor of the White Rock United Church. Rev. Frank was the recent preacher at this place.

The sermon by Rev. Frank was of a high order as evidenced by the criticism of those who attended. After the sermon the Orange Order, of which Mr. Sharpe had been a member of high standing, conducted their short special service.

Our Town

Miss M. I. Angus, of Vancouver, is the guest of Mrs. Garland Foster.

Mr. T. G. Angus, also this son George and his wife, from Vancouver, enjoyed the week-end at the former's home here.

Phillip Brown who has lately joined the airforce has gone to Edmonton. He is a son of Mr. and Mrs. J. Brown, Kerfoot road.

Mr. H. Stewart, Stevens street, had some large double daffodils in full bloom on the second of March. What did you say?

Mr. R. Sutherland and family, of New Westminster, have been spending the past two weeks at their house here in White Rock.

Rev. and Mrs. S. Cassels left Tuesday for Chicago in connection with their missionary work. They will be away for about two weeks.

Mr. and Mrs. Bob MacLean were week-end guests at the home of Mr. and Mrs. Wm. MacLean, also paid a short visit to the Edwards home.

The regular monthly meeting of the V.O.N. Auxiliary will be held Wednesday, March 17th, at 2:30 in the United Church hall. Members are requested to bring in membership books.

Mrs. J. J. Marshall is giving a St. Patrick's Tea at the White Rock Hotel Wednesday afternoon, March 15, from 2:30 to 5 o'clock. Proceeds to go to the W.A. of the United Church. Everybody welcome.

Members and friends of the Women's Division, White Rock A.R.P. Unit are cordially invited to attend a lecture to be delivered by Miss Joan S. Morris, a Lady Cross, N.J.A.B., Vancouver, at the weekly meeting to be held at the White Rock Hotel, on Tuesday, March 16th, at 8 p.m.

Ottawa Letter

TOM REED, M. P.

"The Budget was easily the most outstanding feature of the proceedings in Parliament during the week of March 1st. Considerable interest was taken in this by the people of Ottawa, and for an hour before the House opened there was a long queue waiting to get into the Gallery. This Budget is the fifth Wartime Budget, and easily the most difficult of all that has gone before. The new feature of paying Income Taxes as you earn will be received with favour through the entire country. The \$5,500,000,000 which will be required shows as no other picture can the extent of Canada's War Effort. As the Minister pointed out the Canadian people can shoulder this task and help bring this war to a successful conclusion by their own efforts and in addition assure to themselves and to the men returning from the fighting front resources for a more prosperous and ordered world after the War.

The Minister closed on a high note pointing out that our soldiers, sailors and airmen will do their part, their courage and devotion are beyond praise, and it is up to the people of Canada to do likewise. The Special Committee set up to deal with Social Security including Health Insurance will get underway now that the Resolution has passed the House, and which Resolution occasioned a debate lasting three days. The Debate on the Budget follows.

The dollar a cord bonus for cord wood just announced by the Minister of Munitions and Supply is expected to bring about a better supply of fire wood before next winter, and steps are to be taken to prevent a recurrence if at all possible of the acute fuel shortage, which occurred this winter.

Mr. Jack Robertson, Deputy Master of the Black Chapter of the Columbia was in White Rock on Monday attending the funeral service of Mr. Arthur Sharp.

Homemakers' Corner

"Time dith a fly, sweetly dith a when there's love at home"

Dear Homemakers:—

A few days ago we met a group of women who were discussing the Tenth season. One of them said that this year it was hard to know from what to abstain because so much was rationed. That another homemaker who had become a cigarette addict said quite that she had decided to give up cigarettes and give the proceeds to the Red Cross. We thought this a wonderful idea that many of us might follow. By doing ourselves of this luxury we could help the war effort and at the same time break ourselves from an unfortunate habit.

And we were reminded of that anonymous poem which children even we learned to recite—"True Heroism". In it the author describes as "a hero staunch and true" the person who "struggles against himself and wins". With some exertion of will-power we homemakers can be heroes in a moral sense on the home front while our kinfolk are heroes on other fronts far away.

Surrey School Board Commended

The Surrey Municipal School Board is to be commended for the action it has taken in the matter of the proposed appointment of a Municipal Inspector of Schools. Such an official will not be appointed.

During war time it is an accepted policy to keep in good repair equipment already in use rather than to build new. The municipality has several school buildings with comparatively good equipment, and every care should be taken of these. Great attention, however, is needed in the matter of staffing the schools. For a long time the changes of teachers in our municipal schools have been so frequent that our school children seem to have been taught by a procession. The cause, of course, lies in the deplorably low salaries paid to the majority of our teachers—salaries which compare unfavorably with the pay obtainable by young persons engaged in the most elementary type of war work. The lower paid employees of the Canadian Civil Service receive a cost of living bonus of \$18.42 per month. Such a bonus would be very appreciable in comparison to the minimum salary paid to Surrey teachers.

The remedy for this serious weakness is a well graded salary schedule providing for annual increments for a number of years beyond a minimum, of say, \$1,000. Capable teachers with high qualifications would then be attracted to our schools and would be likely to remain on the staff for a number of years with the result that the general standard of instruction would be raised and a greater continuity of service obtained.

Such a standard of education is perhaps beyond the ability of the Surrey taxpayer to provide and it is imperative that the Province, being responsible for education under the B. N. A. Act, assume the major part of the cost of education.

In the spring a young man's fancy turns to thoughts of love, but to the older folk their thoughts turn to gardening.

Mrs. W. R. Ball leaves Friday for a week's visit with her husband in Kelowna, who is now staying there for his health.

The White Rock Board of Trade will hold its regular monthly meeting on Tuesday, March 16th, at 8 p.m. in the White Rock hotel.

Mrs. A. Burgess, of Ruby's Lodge who has been in the hospital with a severe cold, has gone to Haney for a rest with her parents, Mr. and Mrs. Kendall, on the farm.

WARNING

CANADA FACES A WOOD-FUEL FAMINE NEXT WINTER

ARE YOU one of the Canadian householders who burned fences, doors, and even flooring to keep warm in this winter's sub-zero weather?

Or perhaps you are one of the lucky ones who just managed to scrape through?

In either case, you will want to be prepared for next winter when greater hardships loom unless you take immediate action.

The shortage already has affected many communities . . . total stocks of dry wood are nearly exhausted . . . in some places the small supply of green wood cut for next winter is being used now to meet the present emergency.

Throughout most of Canada, fuel-wood is obtained not far from where it is consumed. Its production and distribution are the business of local citizens.

The Dominion Government recognizes that the wood-fuel shortage is so serious that even with the full co-operation of everyone in affected communities an adequate supply is not assured. Accordingly, it has been decided to stimulate the output of wood-fuel by assisting those normally engaged in its production and distribution. To this end, the following measures will be adopted:

- 1 A subsidy of \$1.00 per cord will be paid to dealers on all commercial fuel-wood contracted for and cut on or before June 30, 1943, and held to dealers' account on that date.
- 2 The Coal Controller has been authorized to arrange in his discretion for the payment of such portion of the transportation costs as he considers proper in respect of fuel-wood, particularly in cases where dealers, to procure supplies, find it necessary to contract for fuel-wood at locations outside the area from which they normally derive their supplies. In order to obtain any such reimbursement, dealers must obtain a permit from the Coal Controller before contracting for such supplies.
- 3 The Coal Controller will repurchase from dealers at dealer's cost all commercial grades of fuel-wood on which a subsidy of \$1 per cord has been paid and which are still in dealers' hands as at May 31, 1944.
- 4 Assistance will be given in providing priorities for necessary equipment.
- 5 Farmers now on the farm, and who leave the farm temporarily in response to this appeal to engage in fuel-wood cutting, will be deemed by National Selective Service to be carrying out their regular occupation as farmers and will be given all the rights of deferment of military service which such an occupation now carries. Such temporary absence should not, however, interfere with agricultural production.

Municipal councils, farmers, fuel dealers, individual citizens, service clubs, and all other groups in communities where wood-fuel is burned, are urged to begin at once a rapid survey of their local situation, and to take immediate action to relieve the shortage.

LEGION NOTES

Tickets may be had from members of the Legion and Women's Auxiliary of the Legion also from the Semiahmoo Sun, Hughes & McKenzie and White Rock Hotel. For the \$25.00 War Certificate to be drawn for.

March 17th—Whist and bridge at the Pier rooms. Good prizes have been provided. We are looking forward to a good turn out on that date.

March 20th—A joint meeting has been arranged for members of the Legion and Women's Auxiliary, a good turn out of members from both organizations is looked for.

The regular monthly meeting of the W. A. to the Canadian Legion was held on Tuesday, March 2nd, at the Pier rooms. A joint meeting of the entertainment committee was called and arrangements were made to hold a whist and bridge party on the evening of the 17th of March at 8 p.m.

The quarterly joint meeting of the Legion and Women's Auxiliary will be held in the Pier rooms Saturday, March 20th, at 8 p.m. Will all members please make an effort to attend.

WHITE ROCK HONOR ROLL.

A meeting has been arranged for March 22nd at 8:00 p.m. in White Rock Hotel. All organizations are requested to send two delegates. A good representation is looked for so that committees may be appointed to arrange to erect an honor roll. This is a community undertaking and requires the help of all. Teachers of the High School are also requested to attend.

Copper Wire Goes To War

Vast quantities of copper wire are needed for the war efforts of the United Nations. The wire goes into aeroplanes, ships, tanks and innumerable other things. Copper is also required for many other purposes than wire. There is not enough copper to go around, so the Government has severely restricted the use of wire in the telephone business. We must therefore forego adding materially to our lines and equipment until after the war. This is the reason why many people who want telephone service are now unable to get it.

Theatre News

The week begins with H. M. Pulham Esq. Robert Young, born and raised in the stuffy atmosphere of a wealthy Boston family, breaks away from the mould during the World War. He returns with a restless spirit, finds work in New York and falls deeply in love with a beautiful career girl, (Hedy Lamarr). His family tries to drag him back, he loses touch with her, marries a girl of whom his parents approve and plots through life methodically. Also starring Ruth Hussey and Van Heffin.

Also **A Haunting We Will Go**. Hecate Alvirsky is a haunted theatre with Hollywood's two most stupendous stunts. Its the funniest comedy Laurel and Hardy ever made. With Danti, the magician and Sheila Ryan.

The week concludes with **Eagle Squadron**. The first great screen saga of the limitless courage and matchless heroism of the men who fight against tyranny. A panorama of England at war with air raids on London, and a Commando raid on an enemy flying field. With Robert Stack, Diana Barrymore, John Loder and Eddie Albert.

Also **Fly By Night**. Richard Carlson, a young inmate, gets tangled up in a murder accidentally and finds himself hounded by police. In escaping he forces Nancy Kelly, an artist, to flee with him. A Boy and Girl running from the law in a film that's breathless with sustained excitement.

Tens of Thousands of VOLUNTEER WORKERS make your Red Cross Dollars Stretch Farther

● Toting daily in selfless devotion, Canadian women labor to make YOUR Red Cross dollars stretch farther. They sew and knit garments, pack food and supplies, fill precious boxes for our boys in enemy prisons. Since the war began, Red Cross "Blue Smock" workers have made millions of articles from approved patterns, packed millions of cases, for fighter and civilian comfort and relief. Other volunteer women, specially trained, drive cars, trucks, ambulances, help as nurses and nursing aides, office workers and technicians. Hundreds of doctors, too, give their time freely to help relieve human suffering. The 857,000 members of the Junior Red Cross also, are doing work of untold value. These volunteers make YOUR Red Cross dollars go farther for material, food, medical supplies, preparation of blood serum, for our fighters and war victims on the world's war fronts. This must go on. As the war expands, intensifies, the need grows. Never was the need for YOUR dollars so great.

"Of this we may be sure: that thoughts winged with peace and love breathe a silent benediction over all the earth, co-operate with the divine power, and brood unconsciously over the work of his hand." —Mary Eddy Baker.

There is one of mankind's deadliest foes; it destroys every man who cherishes it.

"We can see our deeds to the music of a grateful heart and seek to round our lives into a hymn." —William M. Taylor.

THIS IS OUR BATTLE!

Pacific Stage Lines is battling with the colossal job of handling thousands of additional passengers—war workers and many men in uniform—without the aid of additional rolling stock.

For many passengers it means for the duration necessary transportation without the comfort Pacific Stage Lines would wish each passenger to have.

The best advice we can offer is that wherever possible, use the buses during off peak periods. Arrange your social engagements so that your travel will not conflict with those thousands of workers who need the facilities.

CANADA NEEDS 40 MILLION POUNDS OF FATS FOR EXPLOSIVES

Here is a day-to-day War Job for You!

There is a serious shortage of Fats and Bones in Canada and the only way in which this shortage can be overcome is by the day-to-day saving of every scrap of fat and bone. Every piece of scrap fat and every bone, cooked, pickled, or otherwise, is a valuable asset. Fats make glycerine and glycerine makes high explosives—explosives to bomb the Axis powers—Adolf, Hitler, Tojo, and their U-boats, destroy their tanks. Bones produce fat. Also glue for war industry.

HERE IS WHAT YOU DO

Save every kind of waste dripping. All may be mixed together. Strain through an ordinary metal strainer into a clean wide-mouthed jar. Do not use a glass or paper container. Keep in a refrigerator or a cool place until you have collected a pound or more. Keep separate from your drippings. Keep scrap fat and bones in a cool place.

HERE IS HOW TO DISPOSE OF FATS AND BONES

The Meat Dealers of Canada as a patriotic aid, co-operating with the Government in the all-important war work by contributing their collection facilities. Now you can dispose of your Fat and Bones in any one of the following ways:

1. YOUR MEAT DEALER will pay you an established price per pound for your fat dripping and your scrap fat. You can keep this money for yourself.

2. YOU CAN TURN THE PROCEEDS over to your local Voluntary Salvage Committee and/or to a registered local War Charity.

3. YOU CAN DONATE your Fat and Bones to the established price per pound for your fat dripping and your scrap fat. You can keep this money for yourself.

4. YOU CAN CONTINUE to place out your fat and bones for collection by your Street Cleaning Department where such a system is in existence.

Every pound of dripping, every piece of fat and every bone, cooked, uncooked, or dry, must be saved. If a day-to-day war effort. Your contribution may seem small and unimportant, but even this small act of dripping per person per week will give us 36,000,000 pounds of fat each year for glycerine.

Hotels, Restaurants—Your support urgently needed!
